

MANGIMIFICIO

AMERICAN PERFORMER

COMPLEMENTARY SPORT HORSE FEED

This horse feed has been studied to satisfy the energetic exigencies of horses involved in western discipline. The mix made of high quality feedstuffs blended in the right proportions allows obtaining the best of the horse potential performance, without having the animal over-excited and by covering all the energetic needs during the effort. The vitaminic supplementation particularly designed, in particular for vitamin E and selenium, optimize the muscular oxidative activity by decreasing the accumulation of lactic acid. The presence of macro mineral salts reintegrates the losses related to sweating due to high intensity and repetitive workload for the subjects, typical in regular agonistic activity. The feed is designed to be administered with good quality first cut meadow hay. In case of routinary administration of Alfafa hay, the pairing with the Summer Mash mix is recommended.

COMPOSITION

flocked/milled BARLEY _flocked/milled MAIZE _ WHEAT BRAN _DEHYDRATED ALFAFA FLOUR _crushed OATS _ DEHYDRATED BEET PULP _RICE BRAN _SUNFLOWER EXTRACTED FLOUR _SOYBEAN EXTRACTED FLOUR* _EXTRUDED LINSEED _SUGERCANE MOLASSES _CRUDE SOYBEAN OIL* _CALCIUM CARBONATE from minced rocks _SODIUM CHLORIDE _DICALCIUM PHOSPHATE from mineral origin _DL METHIONINE _L Lysine _YEAST INACTIVATED SACCHAROMYCES CEREVISIAE strain NCYC Sc47Reg n4b1702
*PRODUCED WITH GENETICALLY MODIFIED SOYBEAN

INSTRUCTIONS FOR USE

indicated for horses involved in Western disciplines with a continuous and daily workload. Administer from 700 to 1000 grams per 100 Kg of horse weight divided into 3 daily meals. Leave available clean drinking water and good forage. If you administer alfalfa hay, we recommend pairing with a ration of SUMMER MASH.
