

MANGIMIFICIO

PULEDRI E STALLONI

COMPLEMENTARY SPORT HORSE FEED

This horse feed has been studied and tested in field conditions to cover high biologic needs during intense activity period such as the growth

It is recommended to start the administration in foals 1 month before weaning in combination with the BABY LATTE product. The right energy intake, the good protein content and an elevated supplementation in vitamins, trace minerals and salts are the necessary nutritive principals that lead to a correct and complete growth of a foal that has to become the athlete of the future

This product also guarantees excellent results for adult horses that necessitate a rapid muscular recovery for competitions
