SUPER SPORT

COMPLEMENTARY SPORT HORSE FEED

This horse feed represents the first choice in terms of nutrition technology thanks to the first choice feedstuffs used for its production, it supplies a large variety of energetic sources, available both in short and long term, and is characterized by an highly biologic proteins value and elevated content of polyunsaturated fatty acids. The particular supplementation in vitamins and minerals combined with fatty acids and micro-encapsulated yeasts can maintain the horse's metabolism on maximum rate performance during a major sport commitment by offering a great potential in dealing with efforts, high speed recovery and fatigue disposal.
